

**Wide cooling performance
for your CPU and whole system !**

**UP TO
220W**

Titan announces the newest member to join its Fenrir Family of heat pipe cpu coolers – Fenrir Siberia Edition TTC-NC55TZ(RB). Fenrir-Siberia Edition combines vertical and horizontal low profile fins to disperse heat by sideways and downward airflow (Up to 220W TDP). This provides a better ambient temperature in an over clocking environment by cooling the CPU and its surrounding components such as RAM at the same time. Fenrir- Siberia Edition is equipped with 12cm & 14cm silent Kukri fans to maintain low noise levels and is compatible with most Intel and AMD systems.
