New Accessory for Visualizers: Security Bracket

The security brackets are now available for visualizers of **V series** and **CP series**. It allows you to secure your visualizer on the desk for safekeeping.

How to secure a visualizer to a Security Bracket?

V series

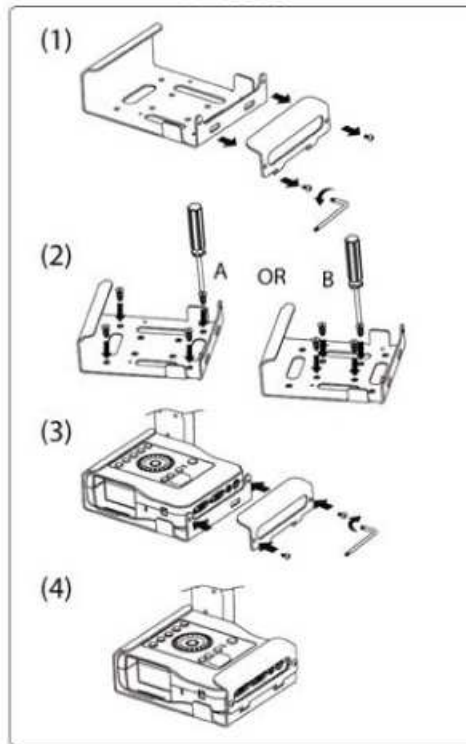

Step 1

Use the L-shape Alan Key to remove the side mounting bracket.

Step 3

Place visualizer into the mounting plate. Then screw the side mounting bracket back onto the mounting plate.

CP series

Step 2

Screw the mounting plate into the desk and make sure it is secured.

Step 4

Your visualizer should be securely locked to your desk.
