

LUNA5ENCORE

A statement of design excellence the Luna5encore is an elegant all-in-one audio system offering uncompromised audio quality. As an iPod, iPhone or MP3 docking station or when operated in FM radio mode the simplicity of use, design and audio quality of the Luna5encore makes for an outstanding visual and audio experience.

"simply iPod"

SPECIFICATIONS

Total Power output : Satellite: RMS 2 x 10W (THD + N =10%, f0= 1KHz)
Subwoofer: RMS 32W (THD + N =10%, f0= 80Hz)

Signal to noise ratio : ≥ 85 dBA

Distortion : $\leq 0.5\%$

Input sensitivity : AUX: Satellites: 150 mV \pm 50 mV,
Subwoofer: 100 mV \pm 50 mV
iPod: Satellites: 150 mV \pm 50 mV,
Subwoofer: 100 mV \pm 50 mV

Input type : AUX, iPod, FM

Adjustment : Master volume control on both the remote control & the control panel, separate bass/treble adjustment on the remote control

Bass unit : 5.75 inch, magnetically shielded, 6 Ω

Mid-range : 2.75 inch, magnetically shielded, 5 Ω

Treble unit : 2.5 inch, magnetically shielded, 6 Ω

Dimension : 376mmx390mmx240mm

Net Weight : Approx 4.7 kg

Gross Weight : Approx 6.1 kg

FEATURES

All-in-One audio system for iPod, iPhone and MP3 player

5 driver-speaker system incorporating unique vibration and resonance control technologies

Floating connection design for the semi-circular base isolates the dock from any low frequency vibration

6 touch sensitive buttons with motion-triggered backlights for easy control and use of system

Low frequency porting and tuned mid-range cavities for smoothest delivery of audio output

High quality digital FM radio

Auxiliary input to connect any MP3 player or MP3 enabled cellular phones to be connected and played

Full range 'universal' switch-mode power supply

Designed in a space-efficient housing in stylish high-gloss translucent black finish

12 iPod dock adapters included
