

Edifier® | a Passion for Sound

R1600 PLUS

Edifier® | Studio

"simply studio"

SPECIFICATIONS

Total power output : RMS 16W x 2 (THD + N = 10%, f₀ = 80Hz)

Signal to noise ratio : ≥ 85 dBA

Input impedance : 10K Ω

Input sensitivity : 550 mV ± 50mV

Bass unit : 4 1/2 inch (120 mm), magnetically shielded, 6 Ω

Tweeter unit : Φ 18 mm silk dome tweeter, magnetically shielded, 4 Ω

Dimension (W x H x D) : Active speaker : 151 x 252 x 228 mm

Passive speaker : 148 x 252 x 214 mm

Gross weight : Approx. 8 kg

FEATURES

All wood enclosure

Professional low-noise amplifier coupled with high performance crossover

Magnetic shielded drivers eliminate monitor and TV interference

4 1/2 inch bass driver - designed using a composite cone structure for a balanced acoustic

Silk diaphragm Φ 18 mm tweeter with aluminum phase plug

Side mounted rotary volume, bass and treble controls

Rear mounted on / off power switch

Dual RCA inputs ; Spring clip speaker wire connectors
