

PRODUCT DESCRIPTION

Slim and elegant, the MP230 is fitted with high performance 1.75 inch Neodymium magnet speakers to provide clear audio output and a bass reflect port to emphasize bass notes. Portable and pocket sized, the MP230 can be connected to any audio host via the 3.5mm line-input jack and powered with 100-240V or 4xAA batteries making it an ideal companion for outdoor and travel activities. A plastic snap-on cover protects the speaker drivers from damage in transport, and also acts as a stand to prop the speaker up in use and direct sound towards the listeners.

FEATURES

- Portable, compact personal audio player
- USB or AC adapter power supply that can also be powered by batteries (4xAA).
- High performance neodymium magnet micro drivers for clear audio playback
- 3.5mm line input connects to a wide variety of audio devices
- Volume control and power on/off switch on top.
- Plastic cover protects the drivers in transport and can also double as a speaker stand
- Available in black and white color.

SPECIFICATIONS

Power Output:	RMS 2.5Wx2
Signal to Noise Ratio (Amplifier):	>=85dBA
Distortion:	0.5%
Input Impedence:	10K Ohm
Input Sensitivity:	350(+/- 50) mV
Speaker Driver:	1 3/4 inch (40mm), magnetically shielded, 6 Ohm.
Power Input:	DC 5V , USB or 4 x AA batteries
Dimension:	8.6"x3"x1" (218x76x27 mm) (WxHxD)
Gross weight:	approximately 1.4Lbs (0.63 kg)
AC Power Adapter:	100V-240V ~, 50/60Hz
